Service Map Location _____

(CMS office can help you with these details)

It's time to review load control for the 2024 season (brief explanation on the next page). Rate information and cost comparison is also available in a separate document.

Please return this signed form to the Meade CMS office BY APRIL 22, 2024.

Do you want this service on the load control program for the **2024** irrigation season?

No _____ Yes _____

- If 'Yes', please mark your preference for CMS to notify you either by e-mail or by cell phone (text message). Complete the contact information blank(s) for that choice. **Lastly, include your signature and date to validate that we have the 2024 season information from you.**
- Contact Lester with any questions at **800-794-2353** or **620-873-2184**. We look forward to a successful summer working with you.

What horsepower changes have been made to your service? _____

E-mail address _____

Cell Phone # for text messaging _____

In order to receive text messages or add a number to your text list: go to www.cmselectric.com (use the enclosed instructions) OR schedule a time to stop by our office and we will assist with this process.

I wrote more information for Lester on the next page.

Signature _____ Date _____

Thank you for returning this form to CMS as soon as possible.
Completed forms also accepted by scan & email to: **ltacha@cmselectric.com**

Meade, KS 67864-0790

Load Control Program

The load control rate allows CMS to shut off your irrigation pump and sprinkler at times of peak demand in exchange for a lower rate per kWh. We strive to keep the interruption times to a minimum, and will continue to do so this year. However, as the price for electric power increases, it becomes more critical that we ensure the irrigation loads are not running during peak hours.

This year we will again be controlling in the months of June, July, August and September, with emphasis on July and August. We will control on weekdays only and strive to limit control times to around 2 hours per control day. We do not guarantee only 2 hours and some days may be longer.

Please update your information by returning the form. Contact Lester with any questions at **800-794-2353** or **620-873-2184**. We look forward to a successful summer working with you.
